

DAIRY DAY 2021

Littleton Museum

Our Relationship with the Ebert Family Farms

We are often asked by visitors, where we send our calves and cows when we no longer need them here at the Littleton Museum. We send them to the Ebert Family Farms. We saw one such cow when we were visiting the Farms. We saw Kalmia, June's last calf. She is two years old now, and just had her first calf. Here are some photos we took of her while we were at the Ebert Family Farms.

Kalmia waiting her turn to be milked.

Kalmia in the milking stanchion.
